Summary

Software Developer with experience in Flutter, Laravel and Nuxt.js, currently building scalable applications at Spacetoon. Graduated with honors in Artificial Intelligence from the Arab International University. Passionate about developing efficient systems that combine AI and modern web/mobile frameworks.

Work Experience

Spacetoon | Software Developer

2021 - Present
+500 employees

- Focused primarily on frontend development using Nuxt.js and Flutter, building scalable and responsive applications for internal and external clients.
- Collaborated on Mini ERP and other business systems, contributing to the Laravel backend for specific modules while developing the Nuxt.js front-end.
- Worked on UI/UX design tasks using Figma, creating and refining interfaces to improve user experience and maintain design consistency across platforms.
- Integrated APIs, optimized performance, and participated in testing and deployment processes to ensure product stability.

Technologies: Flutter, GetX, Nuxt.js, Laravel, Laravel Backpack, MySQL, Firebase, REST API, GraphQL, HTML, CSS, cPanel, GitLab, Shopify, and Figma.

Projects: Mini ERP(Nuxt.js, Flutter, and Laravel), ZaiToon ([Store](#) and [Dashboard](#)), [Prink](#), Spacetoon Mum (Mobile app), Treasures (Mobile app), Rando([website](#)), [Strawberry Quiz](#), and [FIFA Competition](#).

Freelance Flutter developer

2023 – Present

- Developed and delivered five mobile applications for different clients.
- Used GetX for state management, implemented multi-language support, and integrated Firebase notifications.
- Ensured all applications were responsive across multiple devices. Collaborated with 2 designers and 3 project managers across 7 projects to achieve project goals and deliverables.

Technologies: Flutter, Laravel, Firebase, REST API, GitLab.

Projects: [Adam](#), [Offers](#), [Rihana](#), [Sadaf Warehouse](#), [Alrafidain](#), and [Trans Driver](#).

Freelance Nuxt.js Developer

2024 – 2025

- Developed and delivered three Nuxt.js projects — two generated as static sites and one built with Server-Side Rendering (SSR) to enhance SEO and runtime performance.
- Integrated RESTful APIs, optimized state management, and ensured responsive UI across devices.

Technologies: Nuxt.js, TypeScript, REST API, GitLab, Firebase

Projects: [Magnact](#), Purple by Seedra, and Bint al Sham.

Education

Bachelor Of CS Engineering - Artificial Intelligence

2017-2021

Arab International University

- Arabic Talking Head [*Senior Project*] (Mar 2020 – Aug 2021): Developed a virtual friend application that communicates in Arabic. This project integrated multiple components, including automatic speech recognition, a chatbot, text-to-speech, and deep fake technologies. Technologies: Python, Flutter, Flask, and Firebase Database. [Report Link](#)
- Implementing Smart Chatbot [*Junior Project*] (Mar 2018 – Aug 2020): This project aims to build an intelligent chatbot that helps Ubuntu users and makes it easier for HR to hire. Technologies: Python, Android, Django REST, and Firebase Database.

Achievements

ICPC - International Collegiate Programming Contest

2018

- Achieved 4th place in the Private Syrian Collegiate Programming Contest (PSCPC), solving the first problem within the first 30 minutes.
- Ranked 20th in the Syrian Collegiate Programming Contest (SCPC) and placed 1st among private universities.
- Qualified for and participated in the Arab Collegiate Programming Contest (ACPC), representing the university at a national level.

Skills & abilities

- **Technical Skills:**
 - Frontend: Nuxt.js, HTML, CSS, JavaScript
 - Mobile Development: Flutter,GetX, Multi-language apps
 - Backend & Databases: Laravel, Flask, MySQL, Firebase, REST API, GraphQL.
 - Programming Languages: Python, PHP, Java, SQL, C++, C#
 - Tools & Version Control: Git, GitLab, cPanel, Shopify
- **AI & System Design:**
 - Machine Learning, Deep Learning, NLP
 - System architecture, design patterns, database design
- **Soft Skills:**
 - Team Collaboration & Communication
 - Fast Learner & Adaptable to new technologies
 - Works efficiently under pressure

Languages

- Arabic Native or Bilingual Proficiency
- English Professional Working Proficiency
- French Elementary Proficiency
- German Elementary Proficiency
